DEFENSES

Subject to the responses above, Ericsson alleges and asserts the following defenses in response to the allegations, without admitting or acknowledging that Ericsson bears the burden of proof as to any of them or that any must be pleaded as defenses. Ericsson specifically reserves all rights to allege additional defenses that become known through the course of discovery.

FIRST DEFENSE (NO INFRINGEMENT)

1. Ericsson equipment and technology supplied to AT&T has not infringed and does not infringe, either literally or under the doctrine of equivalents, any valid and enforceable claim of the Asserted Patents, in any manner including under any section of 35 U.S.C. § 271, including

35 U.S.C. §271(a), (b), and/or (c), willfully or otherwise. AT&T has not performed any act and are not proposing to perform any act in violation of any rights validly belong to Plaintiff.

**SECOND DEFENSE
(INVALIDITY)**

2. The asserted claims of the Asserted Patents are invalid for failure to satisfy the requirements of 35 U.S.C. § 100, *et seq.*, including, but not limited to, one or more of the following: 35 U.S.C. §§ 101, 102, 103, and/or 112. For example, each claim is invalid in view of the references cited by the Examiner and arguments made by the Applicants during prosecution of the applications that issued as the Asserted Patents.

**THIRD DEFENSE
(NOTICE, DAMAGES, AND COSTS)**

3. Plaintiff's claims for damages are statutorily limited under 35 U.S.C. §§ 252, 286, 287, or 307. To the extent Plaintiff or its licensees have failed to comply with the marking and notice requirements of 35 U.S.C. § 287(a), Plaintiff's requested relief is barred, in whole or in part, for any damages arising from AT&T's alleged infringement prior to at least the date of the filing of the original Complaint or otherwise limited by 35 U.S.C. § 286.

4. Plaintiff is barred from recovering costs in connection with this action under 35 U.S.C. § 288.

5. Plaintiff's claims for relief are limited by the doctrines of full compensation, exhaustion, and/or first sale, and Plaintiff is not entitled to a double recovery.

**FOURTH DEFENSE
(PROSECUTION HISTORY ESTOPPEL)**

6. Plaintiff's claims are barred by the doctrine of prosecution history estoppel based on statements, representations, and admissions made during the prosecution of the patent

applications resulting in the Asserted Patents before the United States Patent and Trademark Office and/or during the prosecution of related patent applications.

**FIFTH DEFENSE
(FAILURE TO STATE A CLAIM)**

7. The Complaint fails to state a claim upon which relief can be granted.

**SIXTH DEFENSE
(LICENSE, IMPLIED LICENSE, AND/OR EXHAUSTION)**

8. Plaintiff's claims for patent infringement are precluded in whole or in part (i) to the extent that any allegedly infringing products or components thereof are supplied, directly or indirectly, by any entity or entities having express or implied licenses or covenant not to sue or assert to the Asserted Patents and/or (ii) under the doctrine of patent exhaustion. Additionally, Plaintiff's claims for patent infringement are precluded in whole or in part to any direct licenses or agreements/covenants not to sue that pertain to AT&T or Ericsson.

**SEVENTH DEFENSE
(INEQUITABLE CONDUCT)**

9. Plaintiff's enforcement of at least the '235 Patent, the '376 Patent, and the '939 Patent is barred by inequitable conduct, as follows:

10. The '235, '376, and '939 Patents all ultimately arose from applications originally filed in 2003 as Application Serial Numbers 10/700,329 for the '235 and '376 Patents and 10/700,342, for the '939 Patent.

11. By fall of 2007, the '329 and '342 applications were owned by Vivato Networks, Inc.

12. In December 2007, Vivato Networks merged with Catcher Holdings, Inc. ("Catcher"), and transferred the patent applications to Vivato Networks Holdings, Inc. ("Vivato Holdings"). Vivato Holdings granted Catcher the exclusive right to prosecute the applications. On

April 1, 2008, Catcher ceased operations and terminated all employees due to a lack of working capital.

13. In late April or early May 2008, Brooks withdrew as the attorney of record for the '329 and '342 applications.

14. In June 2008, Aequitas Equipment Finance, LLC ("Aequitas"), assignee of Aequitas Capital's security interest in the applications, sought to foreclose on the '329 and '342 applications, each of which became abandoned between June and July 2008 for failure to respond to office actions from the United States Patent and Trademark Office ("USPTO").

15. In April 2009, Aequitas obtained a foreclosure judgment against Vivato Networks and Vivato Holdings, and took title of the abandoned applications through a sheriff's sale.

16. In fall 2009, Carl J. Schwedler, attorney for Aequitas, filed petitions to revive the '329 and '342 applications. As part of each of those petitions, Schwedler represented that the entire period of delay from the due date for filing a reply to the pending USPTO office actions to the date of the petitions, was unintentional under 37 C.F.R. § 1.137(b)(4).

17. Upon information and belief, Schwedler's representation that the delay in prosecuting the applications was unintentional was false.

18. The USPTO granted the petitions filed by Aequitas to revive the '342 application, but denied the petition to revive the '329 application. In December 2009, Aequitas sold its patent portfolio (including the revived '342 application and the still-abandoned '329 application) to Plaintiff XR.

19. In 2010, XR took responsibility for prosecuting the patent applications.

20. On November 8, 2010, Daniel P. Burke, an attorney for XR, filed a renewed petition to revive the '329 application. In doing so, Burke represented to the USPTO that the entire period

of delay from the due date for filing a reply to the pending USPTO office action to the date of the petition was unintentional.

21. Upon information and belief, Burke's representation that delay in prosecuting the applications was unintentional was false, and XR itself would not have had knowledge of the circumstances surrounding the abandonment of the applications.

22. Upon information and belief, the delay that resulted in abandonment of the '329 and '342 applications was not unintentional.

23. Upon information and belief, Aequitas and XR falsely certified that the entire period of delay in replying to the PTO was unintentional.

24. Upon information and belief, the false representations that the entire period of delay in responding to the USPTO with respect to the '329, and '342 applications was unintentional were made with intent to deceive the USPTO into granting the petitions to revive. Specifically, upon information and belief, the following petitions to revive (and requests for reconsideration) contained knowingly false statements made with intent to deceive, and were material to the USPTO's decision to revive the applications and ultimately issue the Patents-in-Suit:

- a. The petition to revive the '329 application, filed on August 28, 2009 by Schwedler;
- b. The petition to revive the '342 application, filed on November 3, 2009 by Schwedler;
- c. The request for reconsideration of the dismissal of the petition to revive the '329 application, filed on November 18, 2009 by Schwedler; and
- d. The renewed petition to revive the '329 application, filed on November 8, 2010 by Burke.

25. Upon information and belief, the false representations that the entire period of delay in responding to the USPTO with respect to the '329 and '342 applications was unintentional were material to the USPTO, because without that false representation the USPTO would not have ultimately granted the petitions to revive and the '235, '376, and '939 Patents never would have issued.

26. Accordingly, upon information and belief, Aequitas, XR and their counsel engaged in inequitable conduct in reviving the '329 and '342 applications.

EIGHTH DEFENSE (STATUTORY LIMITATIONS)

27. To the extent certain equipment accused of infringing the Asserted Patents are used by and/or manufactured for the United States Government and/or public good, Plaintiff's claims involving AT&T or Ericsson equipment or technology may not be pursued in this Court and are subject to other limitations pursuant to 28 U.S.C. § 1498.

NINTH DEFENSE (NO ENTITLEMENT TO INJUNCTIVE RELIEF)

28. XR is not entitled to injunctive relief. Under *eBay v. MercExchange*, LLC, 547 U.S. 388 (2006), any alleged injury to XR would not be immediate or irreparable, XR would have an adequate remedy at law, and the balance of hardships does not warrant injunctive relief.

RESERVATION OF DEFENSES

Ericsson hereby reserves the right to supplement defenses as discovery proceeds in this case.

INTERVENOR ERICSSON INC.'S COUNTERCLAIMS
